

## CAS: 1846-76-0

|                    |  |
|--------------------|--|
| Cat. No.:          | 1024306  |
| CAS No.:           | 1846-76-0                                      |
| English Name:      | Ethyl 3-coumarincarboxylate                    |
| Chinese Name:      | 香豆素-3-羧酸乙酯                                     |
| Synonym:           | Ethyl 2-oxo-2H-chromene-3-carboxylate          |
| Purity:            | 95+%   |
| Storage:           | 4°C  |
| MDL No:            | MFCD00016964                                   |
| Molecular Formula: | C <sub>12</sub> H <sub>10</sub> O <sub>4</sub> |
| Molecular Weight:  | 218.21   |
| Smiles Code:       | <chem>O=C(C(C1=O)=CC2=C(O1)C=CC=C2)OCC</chem>  |
| Boiling Points:    | 378 °C at 760 mmHg                             |
| Melting Points:    | 92-94°C  |
