

## Certificate of Analysis

### Compound Information

|                     |                                                             |
|---------------------|-------------------------------------------------------------|
| Product Name:       | Ethyl 4-amino-1,2,5-oxadiazole-3-carboxylate                |
| Cat. No.:           | 1219258                                                     |
| CAS No.:            | 17376-63-5                                                  |
| Molecular Formula:  | C <sub>5</sub> H <sub>7</sub> N <sub>3</sub> O <sub>3</sub> |
| Molecular Weight:   | 157.13                                                      |
| Chemical Structure: |                                                             |

### Batch Information

|              |                           |
|--------------|---------------------------|
| Batch No.:   | Le031063141               |
| Storage:     | 2-8°C, protect from light |
| Test Date:   | 2021-03-10                |
| Retest Date: | 2026-03-09                |
| Origin:      | Shanghai, China           |

### QC Summary

|                              |                                                                         |
|------------------------------|-------------------------------------------------------------------------|
| Appearance:                  | White to off-white (Solid)                                              |
| <sup>1</sup> H NMR Spectrum: | Consistent with structure                                               |
| Purity (NMR):                | ≥98.0%                                                                  |
| Conclusion:                  | The product has been tested and complies with the given specifications. |
